

Service and Information Update No. 2 Coronavirus Disease - COVID-19

For Immediate Release
March 20, 2020

The Township of Coleman is closely monitoring developments as the COVID-19 situation changes, and is committed to doing our part to help slow the spread of the virus and protect our community and partners.

Please see below for the following service update and introduced measures.

Municipal Landfill Site:

The landfill continues to operate during regular hours, until further notice:

- Every Tuesday: 9:00 a.m. until 4:00 p.m.
- Every Saturday: 9:00 a.m. until 4:00 p.m.

In an effort to limit physical contact, the handling of cash payments and receipts have been suspended, and no cash transactions are permitted at this time. The attendant will maintain records of all waste deposited at the site, and receipts / invoices will be mailed to residents.

Residents are encouraged to use curbside collection; however, if a trip to the landfill is made, please consider limiting trips to the site by maximizing loads.

The Township recognizes that these changing service levels may present a challenge to some residents; however, our priority is to protect the residents and staff of the Municipality.

Thank you for your cooperation, for your understanding and stay well.
