 Larose Bridge Replacement

November 27th, 2020

To: Property Owner
 RE: Road Closure – Larose bridge

Miller Paving Northern Ltd. and EXP Services Inc. have been retained by the Township of Coleman to provide design and construction services for the replacement of the Larose bridge. The Larose bridge is located on Ferland Avenue (Cobalt) / Kerr Lake Road (Coleman), approximately 110 meters south east of Lang Street.

To facilitate the removal and construction of this project, a complete road closure will commence on January 4th, 2021 through to project completion (tentatively late Fall 2021).

No traffic will be permitted to cross the bridge during the closure. A detour route is available for residential traffic. The detour is as follows:

- Continue straight on Lang Street for 1.9km (as it changes to Silver Street, Grandview Avenue, Cobalt Street, Miller Avenue and Hwy 11B)
- Turn left onto Coleman Road and continue for 1.3km
- Turn left onto Nippissing Road for 1.6km at which point it intersects with Kerr Lake Road

For safety reasons, spectators are not allowed onsite or within the road closure. It is respectfully requested that residents keep their distance from the project at all times.

Should you have any questions, information will be available at Town Council Meetings, or can be obtained by contacting the below:
